Here is my GitHub account for some of my projects - @chivicoko

Experience

Premium ESOWP Limited, Awka Nigeria — Frontend (ReactJs) Developer (June 2023 -)

My role at Premium ESOWP Limited is to create UIs and/or transfer figma UI into code (as the case may be) for our clients, which include different companies like Educational Institutions, Construction companies, all sorts of companies. I and the rest of the team use the best technology for any individual project - HTML, CSS, JavaScript, Bootstrap, React.

Dufuna Code Camp, Ibadan Nigeria — (Trainee) Full Stack Developer (July 2022 - January 2023)

Received 4 months practical training and mentorship on software development using Javascript, PHP, CSS, HTML, React, Slim, Eloquent.

Built a full stack shopping application with CSS, HTML and PHP.

Built a fully responsive and functional customer service app using React, HTML, CSS and Bootstrap. link
Built a fully responsive music app using MERN stack and Rapid API

University of Michigan — (Trainee) Python Developer (April 2020 - October 2020)

Received 6 months intensive hands-on training on the Basics and Rudiments of Python programming language, in the Coursera platform.

Successfully built a full blog app using Python and Django

Education

Nnamdi Azikiwe University, Awka, Nigeria — *BA Music (*November 2015 - July 2019.*)*

Top Soloist, student performing art conference 2008

Lead Keyboardist/Pianist, Western Orchestra, Music Dept. UNIZIK 2017

Led Vicharmonic Chorale to success at the 2018 Anambra State Music Competitions/Fiesta.

Projects

Mezzolistr App — September *2021*
Built an app that consumes data from a music api, and displays some of the data on the UI at specific intervals. I used the MERN stack for this project. The GitHub Link .

Investment Site — April *2023*

Built an investment site - UltrexGoldIntl with the MERN stack, where one can invest with crypto currencies, and continuously accumulate due percentage profits each of the 5 days of the week. I will keep on updating this app to make it more efficient.
